DOS EQUINE LLC ANNOUNCES PARTICIPATION WITH PALM PARTNERSHIP

JUNE 2008 - Dos Equine LLC is pleased to announce that The Whip Clip® will be distributed to participants through the Palm Partnership Training Clinics this summer. "We are excited to have this opportunity to introduce the product to clinic participants" said Jan Grimm, President of Dos Equine LLC. The Whip Clip is a personal equestrian whip holder that is designed to slide over tall boots or half chaps.

"We have had the Whip Clip out for 12 months and have received an overwhelming amount of positive feedback from individuals among several disciplines including trail riders, dressage, hunter-jumpers, mounted police units and the parents of children who keep losing their whips" says Ms. Grimm. While people of all ages can use The Whip Clip, it may be especially useful for kids and novices when they are learning how to carry the whip or crop. There are times when they are learning to carry a crop correctly, it gets in the way as they are coordinating hand aids and don't need to use the crop or whip.

The Whip Clip can be purchased at local tack stores, online, or at www.TheWhipClip.com.

About Dos Equine LLC

Dos Equine LLC is a privately held company that specializes in providing solutions to the unique needs of horse owners, riders and enthusiasts. Based in western Michigan "horse country," the company has access to a multitude of horse breeding, training and boarding facilities for product development and testing, as well as the resources of Michigan State University.
